ERASMUS +

ACTION KA1

Vocational Education and Training

Vocational Educational and Training

Aimed at apprentices, pupils and students of vocational education and training schools.

These trainees are placed in a job and/or training position in another country.

Learning outcomes are officially recognized and validated at the institutional level, the content of the courses is adjusted as required to ensure that the mobility period abroad matches the course in which the apprentice is enrolled

Training duration: 2 weeks - 12 months.

Funding Expenditures-Trainee Mobility

- Travel
- Subsidy to cover organizational expenses
- Subsidy to cover individual expenses
- Language support
- Exclusive expenses
- Support for people with disabilities

Staff Mobility

Professional development of VET staff in the form of placement or a period of on-site work/observation abroad at a company or other vet institution.

Duration of training: 2 days- 2 months

Who can participate?

Any person who works actively in the field of VET and is responsible for vet issues. In the case of training, the action is open to individuals from companies and public organizations

The aim is to upgrade and acquire knowledge and practices as well as/ or renew the pedagogical skills of VET professionals.
